

Tuesday, Aug. 14, 2018: Too many bonds

Too many bonds

I would like to know why the Maine Legislature cannot do its job? The number and dollar amount of bond issues we have to vote on each year is getting ridiculous.

Do we need to do away with the Legislature and vote on everything ourselves? Do Maine voters even understand what their liability is if the bonds are not paid?

Richard Jerabek

Orrington

- A very good question since the DOT is currently in an every year bond cycle—each \$100 million bond costs Maine's taxpayers \$29 million in interest payments before maturing in 10 years!!
